UPHOLDING HIS ACTION ON THE FLAGS. BIG AND LIVELY MASS-MEETING OF HIS PRIENDS AND SUPPORTERS.

The meeting called to inderse Mayor Hewitt's action in refusing to place any flag but the Stars and Stripes upon the City Hall was a big one, and crowded the targe hall of Cooper Union before 8 o'clock. When we was full to overflowing the band was brought in and played the "Star Spangled Banner" while the people shouted their approval, and old Mr. Richardson, he owner of General Washington's coach, whose patribeard almost reaches his knees, waved a good-

led flag on the stage.

Pefer Forrester was introduced as chairman and in stating the object of the meeting every mention of Mayor Hewitt's name and action was greeted with reat and repeated cheering. A long list of vice-residents and secretaries was read which included the es of Chauncey Shaffer, Dr. J. M. King, F. Crownushield, Controller Myers, Rev. W. C. Steele, the Rev. Merritt Huriburd, J. Edward Simmons, Charles H. Ditman, C. H. Serymser, Benjamin F. Mannierre, J. E. Briggs, U. S. Grant, jr., and Charles T. Canfield.

Letters breathing deep interest in the object of the meeting were read from Ernest A. Crosby, Robert Ray amilton, Charles A. Fuller, W. H. Kimball, A. A. brake, A. J. Boyer, A. H. H. Dawson and others. The expression in one "God bless Mayor Howitt," was theered again and again. Another spoke of the Mayor "denounced by a majority of the Board of Afdermen." when a proposal in the corridor to "railroad them all to Sing Sing, where they belong," received tremendous approval. The names of Alderman Conk-ling, Von Minden and Hubbell who voted to sustain the Mayor's veto, were received with cheers. The advice of another writer to "all who prefer another flag to the Stars and Stripes, to go back to the country they came om," received three cheers, while the band played

Simeon E. Church was the first speaker. He in-quired, "Why this great gathering of intelligent and carnest men and women? Has the American flag been insulted? No. It is enough that an attempt has been made to dishonor those who hold that flag in bono. The Mayor is right. (Cheers.) There is but one flag. The time has come to feel the public pulse, which is the purpose of this meeting, and find out whether the people are with the Mayor, or the Board of Aldermen." (Hisses.)

It brought out an audience of such size and calibre. It was an American audience, made up of brains and manhood. The speaker culogized the Mayor and predicted that a majority of the voiers of New-York would support him for any effice he might aspire to. Judge R. H. Shannon spoke cloquently of the stand taken by Mayor Hewitt, and referred to him as the glorious son-in-law of Peter Cooper." The resolutions were then read. They strongly indorse Mayor Hewitt; deprecated the display of any and all foreign flags on National or municipal buildings; denounce the action of the Alderman, and of the Legistatore, as political demagogues and cowards; and promise to parade on Decoration Day with an American flag. They were adopted unanimously by a rising vote and amid great cheoring.

It was now after 10 c'clock, and the programme was finished, but unfortunately another crator was brought forward in the person of the legistance of the was made and a summan and the distinctive principles of the "new American party," as he termed it, bitterly denouncing all supposed to differ from him. At this point the chairman arose amidest considerable excitement and said: "When I was asked to preside here to night it was understood that it was for the indorsement of Mayor Hewitt and the flag. No party measures were to be advocated and no man's creed was to be attacked. I can permit nothing of the kind here," and he waved Mr. Reeve to his seat and called on the Rev. Dr. Rowditch to spoak. A portion of the audience composed of friends of Mr. Reeve left the hall and the meeting, after listoning to Dr. Bowditch and a few inspiring remarks by the chairman, quietly adjourned. was an American audience, made up of brains and

The project of an Elevated Railroad in Chicago has naturally attracted much attention not morely in that city but among capitalists and investors generally. The Chicago company can profit by the experience of the New-York Elevated roads and avoid the early mistakes of the latter. WIDESPREAD STORM IN THE NORTHWEST. Chicago, May 4 .- A violent storm is raging over arge territory in the Northwest. Many points are supposed to be cut off from telegraphic communication, as they have not been heard from to-day. At St. Paul there was a considerable snowfall this morn-ing at 6. The temperature suddenly dropped to the zing point this morning at that city and at Biomarck and Fort Sully. A northwester is blowing here and the indications are that the thermometer will reach the freezing point by to-morrow morning. VIOLATING THE BROOKS LAW IN PITTSBURG. Pittsburg, May 4 (Special).—Already wholesale viola-ions of the Brooks heense law are reported. Only a week has passed since nearly 1,000 saloons were refused licenses, but the Chief of Police is informed by his officers that in two or three hundred saloons is used both secretly and publicly without license. Since May 1, brewers have been supplying them with beer in order to make sure of getting old hills paid up. The Chief of Police will not prosecute them because the Brooks law does not allow any of the fines to go to the city. The county officials, however, will hold a eeting to-morrow to decide what line of prosecution will be best.

The brewers' demand for an increase of wages be presented to the employers in Western Pennsylvania on Monday and a strike is threatened. J. J. O'Reilly, the brewers' supply agent, said to-night: "I do not know whether the employes have set any date for the strike or not but if they have, it will be just what the employers want. You know the Brooks High License law has badly crippled the business in this city. A strike would obviate the necessity of discharging men who are now superfluous."

THE EX-JUDGE DENOUNCED BY THE MEMBER FROM THE EXIST AS A "WORTHLESS MEMBER."
Albany, May 4.—Assemblyman Morgan became groutly excited to-day, in the Assembly, over a bill of his allowing a New York company the right to run a surface railroad through Twenty-seventh and Twenty-eighth-sts., in that city. The bill came up in its to the committee with instructions to amend it.

This made Judge Margan energy, and he accused Mr.

Tamilion of trying to kill the bill because he owned property in those structs, which would be injured should the bill become a law. "The property was left to him by his ancestors," sabi the Judge, "and if he hand to the latest the latest to him by his ancestors," sabi the Judge, "and if he hand to the latest the latest to him by his ancestors," sabi the Judge, "and if he hand to the latest the latest to him by his ancestors," sabi the Judge, "and if he hand to the latest the latest to he latest the latest to he latest the latest th should lose it he would have to shift for himself."

Mr. Hamilton said that he owned property in those streets, but that was not the reason of his antagonism to the measure. Many other people who own property in these streets are also against allowing a railroad to pass through them. This amendment to the bill also wanted stricken out or changed.

he also wanted stricken out or changed.

Such books of account with proofs as to cost of construction and the expenses of operating such railroad may be submitted by the corporation operating or using such railroad to the Commissioners of the Sinking Fund, or other officers authorized by law to receive percentages paid under the provisions of this act, and if it shall appear to them thereby, that in and by the actual operation of such railroad, such percentage is unjust, unreasonable and impracticable of payment, such commission or other officers shall have power to revise, correct and reduce such percentage to a fair, equitable and commensurate amount, and such revision, correction and reduction, when submitted to and confirmed by the General Term of the Supreme Court, in and for the district in which such railroad is located, in and for the district in which such railroad is located, shall supersede and take the place of the percentage at which such sale was made, and shall be the rate of com-

man from the XIth District (Mr. Hamilton; has sustained that tradition honorably and well. The gentleman from the VIIth District (Mg. Morgan) has not sustained that tradition. His bills as a general rule have been a job jet of claim bills that have been gathered from the portfolios of the worst members of former years, and he has led almost all the raids on the treasury of New-York for the purpose of increasing salaries. He is a perfectly worthless member, and for him to get up and attack the member from the XIth is absurd.

In reply to this Mr. Morgan made these remarks:

I am delighted with the consideration of the member from the XXIst (Mr. Crosby). I am glad, indeed—and I trust that it will be put upon the public records of the Assembly—to know that I have been attacked by the member from the XXIst. I revel in the sunlight of a confidence in which that gentleman never can enter. The gentleman from the XXIst, who claims to be the cleancut member of the representatives from the City of New-York, had not even the confidence of his own district. until he went into the Police Department and asked the police to help him through and get the majority of 105. DER. EDWARD SWIFT DUNSTER.

Detroit, May 4 (Special).—Dr. Edward Swift Dunster, professor of gynacology in the medical department of the University of Michigan, died at Ann Arbor last night of pneumonia, age fifty-four. He was graduated from Harvard in 1836 and later from the New-York College of Medicine and Surgery. He held a chair in Dartmouth College, and during the war was a surgeon in the army and was appointed medical inspector by General Rosencrans. He practised in New-York City and edited "The New-York Medical Journal" from 1836 to 1871. During part of this time he held a chair in the University of Vermont. In 1873 he came to Michigan University. He was the author of several medical works.

THE REV. INCREASE N. TABOR.

Mr. Hamilton's motion was carried, however, and this will practically kill the bill, because it will hardly get out in time to be acted upon. It was noticeable that Mr. Morgan was somewhat exhibarated all the morning and was so obstreperous as to be frequently the occasion of decidedly uncomplimentary remarks from his friends.

#### A VICTORY FOR BLOOMINGDALE. THE ASSEMBLY COMMITTEE REACHES CONCLUSION FAVORABLE TO IT.

Albany, N. Y., May 4 .- The majority report of the Committee on Taxation and Retrenchment of the Senate of the State of New-York in the matter of the memorial of the Morningside Park Association in reference to the Bloomingdale Asylum for the Insano was made to-day. The specific inquiries enumerated in the memorial are referred to in their order, and, as far as possible, disposed of separately. The first question is whether the governors of the hospital denied to the State Board of Charities the right of visiting the asylum, and whether there is in fact any here to-day at the age of sixty-uine years. He had held visitation. The committee is unable to say that a proper board or any officer of the State was ever refused the right of inspection. The report says any other purpose than the forwarding of the general charitable objects of the institution as a whole. The committee reports that both free palents and patients who pay moderate sums have been and are taken at the asylum, and that no meason has been shown why the New-York Hospital, in all its branches, should not now be considered, as it has heretofore been considered.

public charity in the true sense of the term, and en-

public charity in the true sense of the term, and entitled to the support of the State and of the public.

The question as to the proper examption of the property of the institution from taxasion is said to be between the local assessors and the corporation; the local authorities must obtermine whether the income of the property goes to charity or not; if so then under the charter it is properly exempt.

The committee opposed the idea of cutting streets through the asylum grounds, saying that there is no pressing need for such action. It says that no evidence to support the charge of mismanagement was produced. The committee concludes by saying that it would be unwise to compel a hasty abundonment of the present location, but advises that steps be taken ultimately to remove the institution.

There is a minority report is signed by Senators Langbein and Foley.

#### A MYSTERIOUS INTERPOLATION. ATTEMPT TO DECEIVE THE LEGISLATURE IN THE INTEREST OF THE CABLE RAILWAY.

Albany, May 4 .- The agents of the New-York Cable Railway Company made a bold attempt to-day to hoodwink the Legislature into passing a bill giving the company seventy miles of the streets of New-York without being aware of the nature of the measure. For some time Senator Erwin has had a bill under consideration by the Senate Railway Committee, which every one regarded as having been introduced in the nterest of the Cable Railway Company, Senator Coggeshall moved in the Railway Committee that this bill should be reported favorably and the motion was adopted, Senators Coggethall, Pierce, Russell and Lewis voting in its favor Walker and McNaughton in opposition to it. While the Senate was in session Senator Walker was aston-ished to learn that the clerk of the committee, James BONDS RECOVERED FROM BUNCO MAG.

#### GENERAL BILLS AT ALBANY. RAPID TRANSIT OF A STATE LIBRARY MEASURE-FOR THE MILITIA.

Albany, May 4.—The Roesch bill, an amendment to the Canter Street Railroad Act was amended by Mr. Hamilton, so that the local authorities shall determine whether bids for franchises shall be in the gross amount at first or be a percentage of the road's carnings. This bill was passed in the Assembly to-day.

The police arrested a Chicago and Alton engineer, Daniel Hannon, who was found prixing in the vicinity. Hannon was dismissed with a slight fine this morning, there being no evidence against him. The damage done to the train was not great, but the tracks were not cleared for traffic until 3 o'clock this morning. The officers of the road believe that James A. Edwards, the injured conductor, was mistaken for Somers, the man who fired at the strikers several weeks ago and wounded two men.

Lambert Conrady, the heroic Catholic mis-sionary who has volunteered to take charge of Molakai, the leper settlement in the Sandwich Islands. The main religious work at Molakai has been done for fifteen years by Father Damian, a Belgian priest. In these years he built a church and about fifty small houses mainly by the labor of his own hands, and has done much to mitigate the sufferings of unfortunates, of whom there are always about 700 at the settlement. About three years ago Father Damian contracted lep-rosy, and the disease has now assumed a virulent form, rendering him well-nigh helpless. He is in the prime of life and of unusual mental force, but he accepts his fate calmiy and declares that he has always expected to die of leprosy. Father Conrady spent many years in mission work in India, but of late removed for his leatth to Oregon, where he was teaching Indians.
